# Lighting Capabilities

In a daily changing industry where different lighting equipment can become outdated in the same week, it's hard to know what gear is right for you.

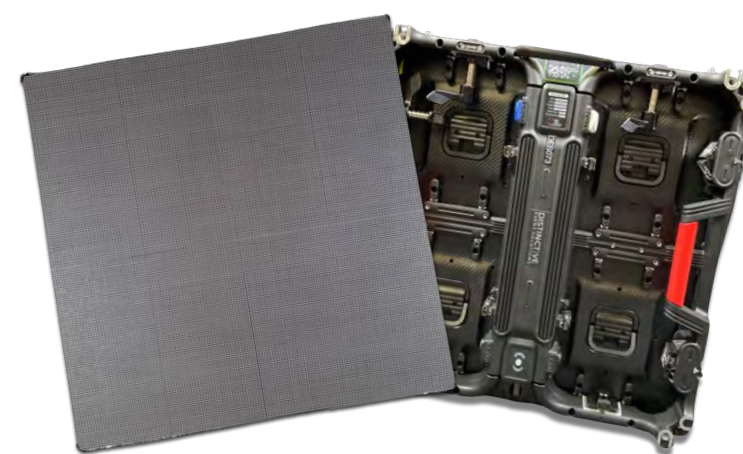

Heavily invested into wireless & battery powered technology, we aim to stay ahead of the curve while meeting your ever need. Developing our own line of custom engineered products enables us to maintain an affordable option to our clients without sacrificing quality or creativity.

# Video Capabilities

In the modern era of instant content the need for video capabilities has never been greater. DES offers a wide variety of video products to meet the demand of an ever-growing market.

Display screens and surfaces of all shapes and sizes, camera, playback & capture services, hardware options and utilities that solve the smallest of challenges are stocked and ready to go. In addition to new products, our staff is trained to operate, assist and support any kind of project or event.

# Illuminated Decor

Do you want to give you event a little more light? A perfect way to execute this is through illuminated decor.

Staying up to date with technology is easy, staying ahead of it is what we live for! From LED Tubes, Flooring & Backdrops to aerial apparatuses & table top products we have what you need to enhance any space with colorful touchpoints and interactive elements.

# Special FX

A little razzle dazzle is bound to bring a lot of attention to your event. Atmospherics & Visual Effects are the way to achieve maximum impact!

From Fog Machines & Hazers, Cold Spark Machines & CO2 Jets to Curtain drops & Confetti launches, let Distinctive add so spark to give your next event that WOW Factor.

We also incorporate our green screen systems to add real time effects to virtual and live experiences.
